

Nitesh Bhati, Senior Associate

SUMMARY

Nitesh is a Senior Associate in Publicis Sapient Noida office having **4.8+ years** of experience in software industry. Most of his experience is in **Java**, **SpringBoot** and **Microservices** with proficiency in building scalable, secure and efficient **REST Api** based applications. He is currently undergoing **Kafka & AWS training**. He holds a Bachelor of Engineering (B.E) degree in Computer Science. He has worked with clients across different industries that includes Healthcare, Banking Projects. He has experience with leading global and multi-vendor teams.

WORK EXPERIENCE

April-2025 - Present

Senior Associate - Publicis Sapient

Skills : Java, Spring Boot, Microservices, RESTful Api, AWS, Kafka

Roles and Responsibilities:

- Participated in in-depth training programs in Java and Microservices architecture to expand technical skillset and contribute effectively to team projects.
- Currently undergoing Kafka & AWS training.

August-2020 - April-2025

Associate - Cognizant Technology Solutions

Skills : Java 8, Spring Boot, Spring Security, Spring Cloud, Docker, AWS, EC2, S3, Lambda, Git, Jira, JPA, PostgreSQL

Roles and Responsibilities:

- Designed and developed scalable **Microservices** using **Java**, **SpringBoot** to meet business requirements and enhance system performance
- Developed and maintained **RESTful APIs** for seamless integration with front-end applications and external service providers.
- Implemented and overseen cloud solutions using AWS services such as **EC2**, **S3**, **Lambda**, and SNS, to ensure high availability and reliability.
- Performed **Unit testing & Integration testing** for developed services to ensure they meet functional requirements and perform as intended.
- Applied comprehensive **Spring Security** protocols, including user authentication, role-based authorization, and advanced data encryption techniques, to prevent unauthorized access of data.
- Enhanced application security by performing IP Ready fixes such as SastScan, DastScan, SonarQube, reducing vulnerabilities and compliance risks by 80%.
- Assisted team in implementing CI/CD pipelines to automate the process of building, testing and deploying the services.
- Collaborated with cross-functional teams, including front-end developers, QA engineers, and product managers to ensure high-quality software delivery.
- Created and maintained comprehensive documentation for code, APIs, and system architecture to facilitate knowledge sharing and onboarding.

Nitesh Bhati, Senior Associate

EDUCATION

- Bachelor of Engineering (B.E) degree in Computer Science from Chandigarh University
- Cumulative CGPA Is 8.03

SKILLS

Tools	Spring Boot, Eclipse, Github
Methodologies:	Agile - Scrum
Programming Languages:	Java8, Java11, Java21
Emerging Frameworks/ Tools:	Spring Security, Spring Data JPA
Database(s):	Teradata, PostgreSQL, MongoDB, MySQL
Web/Application Servers:	Apache Tomcat, Natty
Defect Tracking Tools:	Jira
Other Proficiencies	SQL, JPQL
